

RUSHFORD VOLUNTEER FIRE DEPARTMENT. INC.

SOP 3-08  
INCIDENT RESPONSE

- A) Apparatus drivers should report to the fire hall unless they are sure that all apparatus has responded.
- B) Because of its foam capability, Engine 2 shall be the primary response vehicle to all MVAs and structure fires
- C) Standard response
  - 1) Structure fires. All equipment. Both Engines shall report to the scene unless directed by the IC. R 6 shall report to the nearest water source as directed by the IC or R502.
  - 2) Motor vehicle accidents. R-2, R-601, R-8
  - 3) Mutual Aid Calls. Unless foam capability is specifically requested, R-1 shall respond for standby or scene calls.
